

## Package Contents

Semiconductor cooling wireless charger  
 USB-C cable  
 User manual

## Specifications

Model	YP-WXC-C8
Input	5V≈2A, 9V≈2A, 12V≈1.5A
Output	5W/7.5W/10W/15W
Colour	Black
Back clip weight	About 88g / 3.1oz
Back clip size	63 x 28 mm / 2.5 x 1.1 in
Material	ABS+PC, aluminum alloy, ceramic sheet
Accessories	USB-C charging cable x1

- Do not put the product into fire, do not heat the product, do not store the product at high temperature (recommended  $\leq 40^{\circ}$ ).

- There will be water vapor or water droplets in the process of cooling the radiator, which is a normal physical phenomenon and will not damage the mobile phone.

## Quick Start Guide

E2 semiconductor cooling wireless charger

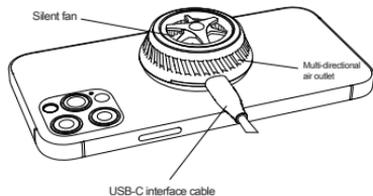

### Instructions for use

Take the cooler out of the box, gently magnetically attach the radiator to iPhone 12 and above models in the direction of the arrow (Pic 1).

Pic 1

Install the cooling radiator on the back of the phone. You need to insert the USB-C interface USB power cable as shown in the picture, the fan starts at the same time with the same color, and the cooling radiator starts to work on the back of the phone. The wireless charging starts.
